

OUR LEARNING EXCLUSIVE

- Custom exam prep software and materials
- Course-specific thinQtank[®] Learning publications to make the learning fun and engaging
- Hands-on labs building, evaluating and deploying agents on Google Cloud
- **We do not teach the test.** We always deliver valuable hands-on experience
- All reading material and study guides sent to you when you register
- Every course taught by Google Cloud-certified practitioners
- Six months mentoring access to our engineers after the course

TRAINING CAMP FORMAT

thinQtank[®] Learning delivers this course as a **four-day instructor-led training camp**, Monday to Thursday. About 50% lecture and 50% hands-on labs and design case studies. Contact us for the schedule covering your dates.

PREREQUISITES

- No certification is required
- 3+ years of hands-on experience building, testing, deploying, and managing cloud solutions, including 1+ years building agentic solutions using Google Cloud (Google's recommendation)

TARGET AUDIENCE

- AI / agentic solution architects
- Senior software developers building AI agents
- ML / AI engineers
- Cloud architects adopting agentic AI

CERTIFICATION

This course prepares you for the Google Cloud Professional Agentic Architect certification exam.

Delivery	Online proctored or Pearson VUE test center
Format	~80 questions, 180 minutes; plus hands-on labs
Exam fee	\$200, set by Google Cloud
Renewal	Valid one year, as Google currently states

COURSE OVERVIEW

thinQtank[®] Learning is offering a unique four-day training camp comprised of four days of instructor-led learning that gives students the knowledge and skills needed to build agents with low-code tools, use coding agents for application development, develop custom agents, evaluate and deploy agentic workflows, and secure and govern them on Google Cloud.

The camp follows the five sections of the current Google Cloud Professional Agentic Architect exam guide, with hands-on labs building, evaluating and deploying agents on Google Cloud throughout.

This course prepares you for **the Google Cloud Professional Agentic Architect certification exam**.

WHAT YOU WILL BE ABLE TO DO

- Configure agentic workflows and behavior with low-code tools and connect enterprise data to Gemini Enterprise
- Use and customize coding agents for enterprise development workflows
- Design and build agentic workflows in code, integrating enterprise domain knowledge
- Orchestrate and coordinate multi-agent workflows
- Evaluate agents in development and in production
- Deploy and scale production agent workloads
- Configure agent security and governance and implement secure agent behavior and execution

EXCLUSIVE LEARNING PACKAGE

- Professional Agentic Architect reading plan and review guide
- Professional Agentic Architect practice exams
- Lab guide you keep after the course
- Course video recordings for review

DELIVERY METHODS

- Instructor-led training
- Immersive live-online training
- On-site and custom delivery

GOOGLE CLOUD CERTIFICATION PATHS				
Foundational Cloud Digital Leader · Generative AI Leader Business, sales and non-technical roles	Associate Cloud Engineer · Workspace Admin · Data Practitioner Hands-on admins and early-career engineers	Infrastructure & Apps Architect · Developer · DevOps · Network · Database Architects, developers and operators	Data & AI Data Engineer · ML Engineer · Agentic Architect Data and AI builders	Security Cloud Security Engineer · Security Operations Engineer Security engineers and SOC teams
COURSE MODULES				
01 Agentic AI on Google Cloud: Foundations	02 Low-Code Agent Building			
03 Connecting Enterprise Data to Gemini Enterprise	04 Using Coding Agents Effectively			
05 Customizing Coding Agents for the Enterprise	06 Designing and Building Agents in Code			
07 Integrating Enterprise Domain Knowledge	08 Orchestrating Multi-Agent Workflows			
09 Evaluating Agents in Development and Production	10 Deploying and Scaling Agent Workloads			
11 Agent Security and Governance	12 Secure Agent Behavior and Execution			
13 Hands-On Lab Practice	14 Exam Review
