

OUR LEARNING EXCLUSIVE

- Custom exam prep software and materials
- Course-specific thinQtank[®] Learning publications to make the learning fun and engaging
- Hands-on labs and design case studies on live Google Cloud projects
- **We do not teach the test.** We always deliver valuable hands-on experience
- All reading material and study guides sent to you when you register
- Every course taught by Google Cloud-certified practitioners
- Six months mentoring access to our engineers after the course

TRAINING CAMP FORMAT

thinQtank[®] Learning delivers this course as a **four-day instructor-led training camp**, Monday to Thursday. About 50% lecture and 50% hands-on labs and design case studies. Contact us for the schedule covering your dates.

PREREQUISITES

- No certification is required
- 3+ years of industry experience including 1+ years designing and managing solutions using Google Cloud (Google's recommendation)
- Associate Cloud Engineer, or equivalent hands-on Google Cloud experience, is a strong foundation

TARGET AUDIENCE

- Cloud application developers
- Software engineers
- Backend / API developers
- Full-stack developers building cloud-native apps

CERTIFICATION

This course prepares you for the Google Cloud Professional Cloud Developer certification exam.

Delivery	Online proctored or Pearson VUE test center
Format	50–60 questions, 120 minutes
Exam fee	\$200, set by Google Cloud
Renewal	Valid 2 years

COURSE OVERVIEW

thinQtank[®] Learning is offering a unique four-day training camp comprised of four days of instructor-led learning that gives students the knowledge and skills needed to design scalable, secure and reliable cloud-native applications, build and test them, configure them for deployment on Cloud Run and GKE, and integrate them with Google Cloud services.

The camp follows the four sections of the current Google Cloud Professional Cloud Developer exam guide, with hands-on labs and design case studies on live Google Cloud projects throughout.

This course prepares you for **the Google Cloud Professional Cloud Developer certification exam**.

WHAT YOU WILL BE ABLE TO DO

- Design high-performing, secure applications and APIs
- Choose how to store and access application data
- Set up a development environment and build and test applications
- Deploy applications to Cloud Run
- Deploy containers to GKE
- Integrate applications with Google Cloud data, storage and APIs
- Troubleshoot applications using observability tools

EXCLUSIVE LEARNING PACKAGE

- Professional Cloud Developer reading plan and review guide
- Professional Cloud Developer practice exams
- Lab guide you keep after the course
- Course video recordings for review

DELIVERY METHODS

- Instructor-led training
- Immersive live-online training
- On-site and custom delivery

GOOGLE CLOUD CERTIFICATION PATHS		
Foundational Cloud Digital Leader · Generative AI Leader Business, sales and non-technical roles	Associate Cloud Engineer · Workspace Admin · Data Practitioner Hands-on admins and early-career engineers	Infrastructure & Apps Architect · Developer · DevOps · Network · Database Architects, developers and operators
Data & AI Data Engineer · ML Engineer · Agentic Architect Data and AI builders	Security Cloud Security Engineer · Security Operations Engineer Security engineers and SOC teams	

COURSE MODULES	
01 Cloud-Native Application Design	02 Designing High-Performing Applications and APIs
03 Designing Secure Applications	04 Storing and Accessing Data
05 Development Environment Setup and AI-Assisted Development	06 Building Applications
07 Testing Applications	08 Deploying to Cloud Run
09 Deploying Containers to GKE	10 Integrating Data and Storage Services
11 Consuming Google Cloud APIs	12 Troubleshooting and Observability
13 Exam Review	

EXAM DOMAINS		
Designing highly scalable, secure, and reliable cloud-native applications		32%
Building and testing applications		23%
Configuring cloud-native applications for deployment		24%
Integrating applications with Google Cloud services		21%
