

OUR LEARNING EXCLUSIVE

- Custom exam prep software and materials
- Course-specific thinQtank® Learning publications to make the learning fun and engaging
- Scenario workshops and practice questions every day
- We do not teach the test. We always deliver valuable hands-on experience
- All reading material and study guides sent to you when you register
- Every course taught by experienced ISACA-certified practitioners
- Six months mentoring access to our engineers after the course

TRAINING CAMP FORMAT

thinQtank® Learning delivers this course as a **three-day instructor-led training camp, Monday to Wednesday**. About 60% lecture and 40% hands-on labs and practice exams. Hands-on work is set to suit the group and the delivery method. Contact us for the schedule covering your dates.

PREREQUISITES

- No prerequisite to sit the exam
- To be certified, ISACA requires 3 years of experience in CDPSE tasks within the last 10 years

TARGET AUDIENCE

- Privacy engineers and data architects
- Security and software engineers who handle personal data
- Technical privacy and compliance analysts
- Cloud and data platform administrators
- Service members, veterans and military spouses using AF COOL, Army CA, MyCAA or VET TEC 2.0

EXAM

Exam	ISACA Certified Data Privacy Solutions Engineer (CDPSE)
Exam fee	\$760 USD per attempt, set by ISACA
Format	120 multiple-choice questions in 210 minutes
Passing	450 on a 200-800 scale
Delivery	Testing center or online proctored; we help you schedule

DELIVERY METHODS

- Instructor-led training
- Immersive live-online training
- On-site and custom delivery

COURSE OVERVIEW

thinQtank® Learning is offering a unique three-day training camp comprised of three days of instructor-led learning that gives students the knowledge and skills needed to engineer privacy into systems: privacy governance and operations, privacy impact assessments and compliance, data life cycle management, and privacy engineering across applications, cloud, identity and encryption.

CDPSE is ISACA's certification for the technical professionals who build privacy into products, platforms and data flows.

This course prepares you for the **ISACA Certified Data Privacy Solutions Engineer (CDPSE)** exam.

WHAT YOU WILL BE ABLE TO DO

- Run privacy governance, vendor management and data subject rights
- Perform privacy impact assessments and manage privacy risk
- Inventory, classify, minimize, retain and destroy data
- Build privacy into the SDLC, APIs and cloud services
- Apply consent, anonymization, pseudonymization and other privacy-enhancing technologies
- Address privacy in AI and machine learning

COURSE OBJECTIVES

Primary course objectives, following the official exam outline:

- Privacy Engineering
- Data Life Cycle Management
- Privacy Governance
- Privacy Risk Management and Compliance

EXCLUSIVE LEARNING PACKAGE

- thinQtank® Learning Accelerated Custom Exam Study Guide for this exam
- Practice exams built to the official exam outline
- Additional hours of remote lab access
- Custom video recordings for review
- Retake any or all of the course, in person or live online, for 24 months
