

OUR LEARNING EXCLUSIVE

- Custom exam prep software and materials
- Course-specific thinQtank® Learning publications to make the learning fun and engaging
- Hands-on labs on live Palo Alto Networks platforms throughout the course
- **We do not teach the test.** We always deliver valuable hands-on experience
- All reading material and study guides sent to you when you register
- Every course taught by experienced Palo Alto Networks practitioners
- Six months mentoring access to our engineers after the course

TRAINING CAMP FORMAT

thinQtank® Learning delivers this course as a **two-day instructor-led training camp**, Monday to Tuesday. The balance of lecture and lab work is set to suit the group and the delivery method. Contact us for the schedule covering your dates.

PREREQUISITES

- Completion of Firewall Essentials: Configuration and Management (EDU-210)
- Familiarity with next-generation firewall management and basic networking

TARGET AUDIENCE

- Security administrators
- Security operations specialists and analysts
- Security engineers and architects

CERTIFICATION

This course supports the **Palo Alto Networks Certified Next-Generation Firewall Engineer** certification.

Delivery	Pearson VUE test center or online proctored
Format	Question count, time limit, passing score and fee are set by Palo Alto Networks in each exam's official datasheet; we walk through the current one in class

DELIVERY METHODS

- Instructor-led training
- Immersive live-online training
- On-site and custom delivery

COURSE OVERVIEW

thinQtank® Learning is offering a unique two-day training camp comprised of two days of instructor-led learning that gives students the knowledge and skills needed to configure and manage the Panorama management server for Palo Alto Networks firewalls: templates and template variables, device groups, administration, log collection and forwarding, reporting and deployment planning.

The camp follows the official Palo Alto Networks **Panorama: NGFW Management (PAN-NGFW)** course outline, with hands-on labs throughout.

This course prepares you for the **Palo Alto Networks Certified Next-Generation Firewall Engineer** certification.

WHAT YOU WILL BE ABLE TO DO

- Configure and manage the Panorama management server
- Work with templates, template variables and device groups
- Collect and forward logs and build reports
- Plan and design a Panorama deployment

EXCLUSIVE LEARNING PACKAGE

- PAN-NGFW reading plan and review guide
- Next-Generation Firewall Engineer practice exams
- Lab guide you keep after the course
- Course video recordings for review
