

OUR LEARNING EXCLUSIVE

- Custom exam prep software and materials
- Course-specific thinQtank® Learning publications to make the learning fun and engaging
- Hands-on labs on live Palo Alto Networks platforms throughout the course
- **We do not teach the test.** We always deliver valuable hands-on experience
- All reading material and study guides sent to you when you register
- Every course taught by experienced Palo Alto Networks practitioners
- Six months mentoring access to our engineers after the course

TRAINING CAMP FORMAT

thinQtank® Learning delivers this course as a **four-day instructor-led training camp**, Monday to Thursday. The balance of lecture and lab work is set to suit the group and the delivery method. Contact us for the schedule covering your dates.

PREREQUISITES

- Basic knowledge of cloud computing and public cloud
- Working knowledge of networking: routing, switching and IP addressing
- Recommended: Firewall Essentials: Configuration and Management (EDU-210), or equivalent experience

TARGET AUDIENCE

- Security and network engineers
- Security administrators and operations specialists
- Cloud security professionals securing remote networks and mobile users

CERTIFICATION

This course supports the **Palo Alto Networks Certified Security Service Edge Engineer** certification.

Delivery	Pearson VUE test center or online proctored
Format	Question count, time limit, passing score and fee are set by Palo Alto Networks in each exam's official datasheet; we walk through the current one in class

DELIVERY METHODS

- Instructor-led training
- Immersive live-online training
- On-site and custom delivery

COURSE OVERVIEW

thinQtank® Learning is offering a unique four-day training camp comprised of four days of instructor-led learning that gives students the knowledge and skills needed to deploy, configure, maintain and troubleshoot Prisma Access, the cloud-delivered SASE platform, through Strata Cloud Manager: service connections, remote networks, mobile users, explicit proxy, ZTNA and digital experience management.

The camp follows the official Palo Alto Networks **Prisma Access SSE: Configuration and Deployment (PASSECD)** course outline, with hands-on labs throughout.

This course prepares you for the **Palo Alto Networks Certified Security Service Edge Engineer** certification.

WHAT YOU WILL BE ABLE TO DO

- Protect applications, remote networks and mobile users with SASE
- Configure service connections, remote networks and mobile users
- Deploy explicit proxy and the ZTNA Connector
- Monitor user experience with ADEM

EXCLUSIVE LEARNING PACKAGE

- PASSECD reading plan and review guide
- Security Service Edge Engineer practice exams
- Lab guide you keep after the course
- Course video recordings for review

PALO ALTO NETWORKS TRAINING PATHS		
Network Security Firewall, Panorama and Strata Cloud Manager Network Security Analyst · NGFW Engineer	SASE Prisma Access, Prisma Browser and Prisma SD-WAN SSE Engineer · SD-WAN Engineer	Security Operations Cortex XDR, XSOAR and XSIAM XDR, XSOAR and XSIAM Analyst / Engineer

COURSE MODULES	
01 Prisma SASE	07 Mobile users
02 Prisma Access architecture	08 Prisma Access explicit proxy
03 Strata Cloud Manager	09 ZTNA Connector
04 Licensing and activation	10 Prisma Browser overview
05 Service connections	11 Autonomous Digital Experience Management (ADEM)
06 Remote networks
