

OUR LEARNING EXCLUSIVE

- Custom exam prep software and materials
- Course-specific thinQtank® Learning publications to make the learning fun and engaging
- Hands-on labs on live Palo Alto Networks platforms throughout the course
- **We do not teach the test.** We always deliver valuable hands-on experience
- All reading material and study guides sent to you when you register
- Every course taught by experienced Palo Alto Networks practitioners
- Six months mentoring access to our engineers after the course

TRAINING CAMP FORMAT

thinQtank® Learning delivers this course as a **four-day instructor-led training camp**, Monday to Thursday. The balance of lecture and lab work is set to suit the group and the delivery method. Contact us for the schedule covering your dates.

PREREQUISITES

- Networking basics, such as private IPs and domains
- Cybersecurity basics, such as indicators of compromise
- Comfort with Windows and Linux, GUI and command line

TARGET AUDIENCE

- SOC, SIEM and automation engineers
- MSSPs and service delivery partners working with XSOAR

CERTIFICATION

This course supports the **Palo Alto Networks Certified XSOAR Engineer** certification.

Delivery	Pearson VUE test center or online proctored
Format	Question count, time limit, passing score and fee are set by Palo Alto Networks in each exam's official datasheet; we walk through the current one in class

DELIVERY METHODS

- Instructor-led training
- Immersive live-online training
- On-site and custom delivery

COURSE OVERVIEW

thinQtank® Learning is offering a unique four-day training camp comprised of four days of instructor-led learning that gives students the knowledge and skills needed to engineer security automation with Cortex XSOAR: incident management, threat intelligence, investigations, dashboards and reports, integrations, engines and load balancing, use-case planning, playbooks and scripts.

The camp follows the official Palo Alto Networks **Cortex XSOAR: Engineering Security Automation Solutions (XSOAR-ESA)** course outline, with hands-on labs throughout.

This course prepares you for the **Palo Alto Networks Certified XSOAR Engineer** certification.

WHAT YOU WILL BE ABLE TO DO

- Investigate and respond to a phishing campaign
- Build custom dashboards and reports
- Install engines and configure load balancing
- Plan and build an automation use case with playbooks and scripts

EXCLUSIVE LEARNING PACKAGE

- XSOAR-ESA reading plan and review guide
- XSOAR Engineer practice exams
- Lab guide you keep after the course
- Course video recordings for review

PALO ALTO NETWORKS TRAINING PATHS

Network Security

Firewall, Panorama and Strata Cloud Manager
Network Security Analyst · NGFW Engineer

SASE

Prisma Access, Prisma Browser and Prisma
SD-WAN
SSE Engineer · SD-WAN Engineer

Security Operations

Cortex XDR, XSOAR and XSIAM
XDR, XSOAR and XSIAM Analyst / Engineer

COURSE MODULES

- | | |
|--|--|
| 01 XSOAR overview | 06 Integrations and content management |
| 02 Incident management | 07 Architecture |
| 03 Threat intelligence | 08 Use case planning and implementation |
| 04 Analyst investigations | 09 Playbook development |
| 05 Dashboards, reports and timers | 10 Automation scripts |
