COURSE OVERVIEW

thinQtank® Learning is offering a unique three-day training camp comprised of three days of instructor-led learning that gives students the knowledge and skills needed to work on and manage projects with PRINCE2® 7 — its principles, people, practices and processes, and how to tailor them to any project in any industry.

PRINCE2 7 is the current edition of one of the most widely used project management methods in the world, and it now puts people and sustainability at the center of the method. The camp covers the full Foundation syllabus and walks a single project from start-up to closure, so students see how every part of the method connects.

This course prepares students to take the PRINCE2® 7 Foundation exam.

WHAT YOU WILL BE ABLE TO DO
