COURSE OVERVIEW

thinQtank® Learning is offering a unique two-day training camp comprised of two days of instructor-led learning that gives students the knowledge and skills needed to apply and tailor PRINCE2® 7 to a real project — making the calls a project manager makes about plans, risk, quality, issues and progress.

The camp builds on Foundation with intensive scenario workshops. Students work through the kind of project scenario the Practitioner exam uses, learn to find their way around the official manual quickly, and practice choosing the right answer when several look reasonable.

This course prepares students to take the PRINCE2® 7 Practitioner exam.
