COURSE OVERVIEW

thinQtank[®] Learning is offering a unique three-day training camp comprised of three days of instructor-led learning that gives students the knowledge and skills needed to build and deliver software as part of a Scrum Team: backlog refinement, cross-functional and self-managed development, design and architecture, quality, testing, and DevOps practices.

PSD validates the ability to build working software using Scrum and modern engineering practices; about 85% of the exam covers professional development and delivery.

This course prepares you for the **Scrum.org Professional Scrum Developer (PSD)** exam.
