Passing	67%
Delivery	Testing center or online proctored; we help you schedule

DELIVERY METHODS

- Instructor-led training
- Immersive live-online training
- On-site and custom delivery

COURSE OVERVIEW

thinQtank[®] Learning is offering a unique three-day training camp comprised of three days of instructor-led learning that gives students the knowledge and skills needed to design integrations between Salesforce and other systems: evaluating the landscape and business needs, translating needs into integration requirements, choosing patterns and APIs, building and maintaining integrations.

Platform Integration Architect is one of the domain architect credentials that count toward the System Architect designation.

This course prepares you for the **Salesforce Certified Platform Integration Architect** exam.

WHAT YOU WILL BE ABLE TO DO

- Evaluate a system landscape and business needs
- Translate needs into integration requirements
- Choose request-reply, fire-and-forget, batch and event patterns
- Select SOAP, REST, Bulk, Streaming, callouts or Salesforce Connect
- Design for security, scale and error handling
- Maintain and monitor integrations

COURSE OBJECTIVES

Primary course objectives, following the official exam outline:

- Evaluate the Current System Landscape
- Evaluate Business Needs
- Translate Needs to Integration Requirements
- Design Integration Solutions
- Build Solution
- Maintain Integration

EXCLUSIVE LEARNING PACKAGE

- thinQtank[®] Learning Accelerated Custom Exam Study Guide for this exam
- Practice exams built to the official exam outline
- Additional hours of remote lab access
- Custom video recordings for review
- Retake any or all of the course, in person or live online, for 24 months
