COURSE OVERVIEW

thinQtank[®] Learning is offering a unique five-day training camp comprised of five days of instructor-led learning that gives students the knowledge and skills needed to build production-ready Mule applications: managed APIs, modular apps and Maven builds, monitoring, performance and reliability, and securing data at rest and in transit.

MuleSoft Developer II requires the MuleSoft Developer certification.

This course prepares you for the **Salesforce Certified MuleSoft Developer II** exam.

WHAT YOU WILL BE ABLE TO DO

- Expose production-ready managed APIs
- Build modular applications with Maven
- Make Mule applications monitorable
- Build performant and reliable applications
- Secure data at rest and in transit
- Automate builds and deployments

COURSE OBJECTIVES

Primary course objectives, following the official exam outline:

- Expose production-ready managed APIs
- Implement maintainable, modular apps and Maven builds
- Implement monitorable Mule applications
- Implement performant and reliable Mule applications
- Secure data at rest and in transit

EXCLUSIVE LEARNING PACKAGE

- thinQtank[®] Learning Accelerated Custom Exam Study Guide for this exam
- Practice exams built to the official exam outline
- Additional hours of remote lab access
- Custom video recordings for review
- Retake any or all of the course, in person or live online, for 24 months
