COURSE OVERVIEW

thinQtank[®] Learning is offering a unique five-day training camp comprised of five days of instructor-led learning that gives students the knowledge and skills needed to design, build and deploy custom applications on the Salesforce Platform using declarative, low-code tools: data models, business logic, Flow, the Lightning user interface and app deployment.

Platform App Builder validates the low-code skills used to build custom apps and is a common step toward the developer and architect credentials.

This course prepares you for the **Salesforce Certified Platform App Builder** exam.
