

OUR LEARNING EXCLUSIVE

- Custom exam prep software and materials
- Course-specific thinQtank[®] Learning publications to make the learning fun and engaging
- Hands-on exercises in a live Snowflake environment every day
- **We do not teach the test.** We always deliver valuable hands-on experience
- All reading material and study guides sent to you when you register
- Every course taught by experienced Snowflake practitioners
- Six months mentoring access to our engineers after the course

TRAINING CAMP FORMAT

thinQtank[®] Learning delivers this course as a **three-day instructor-led training camp**, Monday to Wednesday. The balance of lecture and hands-on work is set to suit the group and the delivery method. Contact us for the schedule covering your dates.

PREREQUISITES

- An active SnowPro Core certification (required by Snowflake before this exam)
- Snowflake recommends 2 or more years of hands-on experience as a Snowflake administrator in a production environment
- Fluency in ANSI and Snowflake extended SQL

TARGET AUDIENCE

- Snowflake administrators and DBAs
- Cloud operations and platform owners
- Security and governance staff responsible for Snowflake accounts

EXAM

ADA-C02 — SnowPro Advanced: Administrator

Exam fee	\$375 USD per attempt, set by Snowflake
Delivery	Pearson VUE test center or online proctored
Format	Question count, time limit and passing score are set in Snowflake's official exam guide; we walk through the current guide in class

DELIVERY METHODS

- Instructor-led training
- Immersive live-online training
- On-site and custom delivery

COURSE OVERVIEW

thinQtank[®] Learning is offering a unique three-day training camp comprised of three days of instructor-led learning that gives students the knowledge and skills needed to work with administering Snowflake: accounts, data security and governance, database objects and virtual warehouses, monitoring, tuning and optimization, data sharing and the Marketplace, and disaster recovery, backup and replication.

The camp follows the abilities Snowflake publishes for this certification, with hands-on work in Snowflake throughout. SnowPro Core is Snowflake's foundation certification and the gateway to the Advanced and Specialty exams.

This course prepares you for the **SnowPro Advanced: Administrator (ADA-C02)** exam.

WHAT YOU WILL BE ABLE TO DO

- Administer accounts, roles, SSO and network policies
- Control cost with warehouses and resource monitors
- Monitor, tune and optimize the platform
- Set up replication, failover and recovery

COURSE OBJECTIVES

Primary course objectives:

- Accounts, security and governance
- Database objects and virtual warehouses
- Monitoring, tuning and optimization
- Data sharing and Marketplace
- Disaster recovery, backup and replication

EXCLUSIVE LEARNING PACKAGE

- SnowPro Advanced: Administrator reading plan and review guide
- ADA-C02 certification practice exams
- Hands-on lab guide for a Snowflake trial account
- Course video recordings for review

SNOWPRO CERTIFICATION PATH

SnowPro Core

Foundation · COF-C03

SnowPro Advanced

Data Engineer, Architect, Administrator, Data Analyst

SnowPro Specialty

Gen AI and other feature exams

COURSE MODULES

01 Accounts, security and governance

- › Topic A: Organizations, accounts and RBAC
- › Topic B: SSO, MFA, network policies and key pair auth
- › Topic C: Masking, row access policies and tagging

02 Database objects and virtual warehouses

- › Topic A: Object management and ownership
- › Topic B: Warehouse sizing, scaling and resource monitors

03 Monitoring, tuning and optimization

- › Topic A: Account usage and information schema
- › Topic B: Query tuning and cost optimization

04 Data sharing and Marketplace

- › Topic A: Shares, reader accounts and listings

05 Disaster recovery, backup and replication

- › Topic A: Database and account replication
- › Topic B: Failover groups and client redirect
- › Topic C: Time Travel and Fail-safe for recovery
