

OUR LEARNING EXCLUSIVE

- Custom exam prep software and materials
- Course-specific thinQtank[®] Learning publications to make the learning fun and engaging
- Hands-on exercises in a live Snowflake environment every day
- **We do not teach the test.** We always deliver valuable hands-on experience
- All reading material and study guides sent to you when you register
- Every course taught by experienced Snowflake practitioners
- Six months mentoring access to our engineers after the course

TRAINING CAMP FORMAT

thinQtank[®] Learning delivers this course as a **three-day instructor-led training camp**, Monday to Wednesday. The balance of lecture and hands-on work is set to suit the group and the delivery method. Contact us for the schedule covering your dates.

PREREQUISITES

- An active SnowPro Core certification (required by Snowflake before this exam)
- Snowflake recommends 2 or more years of hands-on experience as a Snowflake architect in a production environment
- Coding experience beyond SQL and DevOps/DataOps design experience are helpful

TARGET AUDIENCE

- Solution and data architects designing on Snowflake
- Senior data engineers moving into architecture
- Consultants and partner engineers delivering Snowflake projects

EXAM

ARA-C01 — SnowPro Advanced: Architect

Exam fee	\$375 USD per attempt, set by Snowflake
Delivery	Pearson VUE test center or online proctored
Format	Question count, time limit and passing score are set in Snowflake's official exam guide; we walk through the current guide in class

DELIVERY METHODS

- Instructor-led training
- Immersive live-online training
- On-site and custom delivery

COURSE OVERVIEW

thinQtank[®] Learning is offering a unique three-day training camp comprised of three days of instructor-led learning that gives students the knowledge and skills needed to work with architecting solutions on Snowflake: end-to-end data flows from source to consumption, architectures that meet business, security and compliance requirements, tool selection for performance, and sharing through the Snowflake Marketplace and Data Exchange.

The camp follows the abilities Snowflake publishes for this certification, with hands-on work in Snowflake throughout. SnowPro Core is Snowflake's foundation certification and the gateway to the Advanced and Specialty exams.

This course prepares you for the **SnowPro Advanced: Architect (ARA-C01)** exam.

WHAT YOU WILL BE ABLE TO DO

- Design end-to-end data flows from source to consumption
- Build multi-account architectures that meet security and compliance rules
- Choose Snowflake and third-party tools for performance
- Publish shared data sets through the Marketplace and Data Exchange

COURSE OBJECTIVES

Primary course objectives:

- End-to-end data flow design
- Business, security and compliance architecture
- Tool selection for performance
- Marketplace and Data Exchange sharing

EXCLUSIVE LEARNING PACKAGE

- SnowPro Advanced: Architect reading plan and review guide
- ARA-C01 certification practice exams
- Hands-on lab guide for a Snowflake trial account
- Course video recordings for review

SNOWPRO CERTIFICATION PATH

SnowPro Core

Foundation · COF-C03

SnowPro Advanced

Data Engineer, Architect, Administrator, Data Analyst

SnowPro Specialty

Gen AI and other feature exams

COURSE MODULES

01 End-to-end data flow design

- › Topic A: Ingestion and transformation patterns
- › Topic B: Data modeling for the AI Data Cloud

02 Business, security and compliance architecture

- › Topic A: Organizations, accounts and replication
- › Topic B: RBAC, network policies and governance
- › Topic C: Compliance and data residency

03 Tool selection for performance

- › Topic A: Warehouse and storage design
- › Topic B: Snowflake features versus third-party tools

04 Marketplace and Data Exchange sharing

- › Topic A: Listings, private exchanges and reader accounts
- › Topic B: Cross-region and cross-cloud sharing
