COURSE OVERVIEW

thinQtank[®] Learning is offering a unique three-day training camp comprised of three days of instructor-led learning that gives students the knowledge and skills needed to work with data analysis on Snowflake: preparing and loading data, transforming it for analysis, building and troubleshooting advanced SQL, built-in functions and UDFs, descriptive, diagnostic and predictive analysis, and presenting data to meet business needs.

The camp follows the abilities Snowflake publishes for this certification, with hands-on work in Snowflake throughout. SnowPro Core is Snowflake's foundation certification and the gateway to the Advanced and Specialty exams.

This course prepares you for the **SnowPro Advanced: Data Analyst (DAA-C01)** exam.
