

OUR LEARNING EXCLUSIVE

- Custom exam prep software and materials
- Course-specific thinQtank® Learning publications to make the learning fun and engaging
- Hands-on exercises in a live Snowflake environment every day
- **We do not teach the test.** We always deliver valuable hands-on experience
- All reading material and study guides sent to you when you register
- Every course taught by experienced Snowflake practitioners
- Six months mentoring access to our engineers after the course

TRAINING CAMP FORMAT

thinQtank® Learning delivers this course as a **three-day instructor-led training camp**, Monday to Wednesday. The balance of lecture and hands-on work is set to suit the group and the delivery method. Contact us for the schedule covering your dates.

PREREQUISITES

- An active SnowPro Core certification (required by Snowflake before this exam)
- Snowflake recommends 1 or more years of Gen AI experience with Snowflake in an enterprise environment
- Python coding experience; data engineering and SQL knowledge assumed

TARGET AUDIENCE

- Data engineers and AI builders working in Snowflake
- ML engineers deploying models on Snowflake
- Teams adopting Cortex AI and document processing

EXAM

GES-C02 — SnowPro Specialty: Gen AI

Exam fee	\$225 USD per attempt, set by Snowflake
Delivery	Pearson VUE test center or online proctored
Format	Question count, time limit and passing score are set in Snowflake's official exam guide; we walk through the current guide in class

DELIVERY METHODS

- Instructor-led training
- Immersive live-online training
- On-site and custom delivery

COURSE OVERVIEW

thinQtank® Learning is offering a unique three-day training camp comprised of three days of instructor-led learning that gives students the knowledge and skills needed to work with generative AI on Snowflake: Gen AI principles and best practices, Cortex AI features and functions including LLMs, building and fine-tuning open-source models with Snowpark Container Services and the Model Registry, and document processing pipelines.

The camp follows the abilities Snowflake publishes for this certification, with hands-on work in Snowflake throughout. SnowPro Core is Snowflake's foundation certification and the gateway to the Advanced and Specialty exams.

This course prepares you for the **SnowPro Specialty: Gen AI (GES-C02)** exam.

WHAT YOU WILL BE ABLE TO DO

- Apply Snowflake Gen AI principles and best practices
- Use Cortex AI functions and LLMs for real use cases
- Fine-tune and serve models with Snowpark Container Services
- Build document parsing pipelines

COURSE OBJECTIVES

Primary course objectives:

- Gen AI principles and best practices
- Cortex AI features, functions and LLMs
- Snowpark Container Services and Model Registry
- Document processing pipelines

EXCLUSIVE LEARNING PACKAGE

- SnowPro Specialty: Gen AI reading plan and review guide
- GES-C02 certification practice exams
- Hands-on lab guide for a Snowflake trial account
- Course video recordings for review

SNOWPRO CERTIFICATION PATH**SnowPro Core**

Foundation · COF-C03

SnowPro Advanced

Data Engineer, Architect, Administrator, Data Analyst

SnowPro Specialty

Gen AI and other feature exams

COURSE MODULES**01 Gen AI principles and best practices**

- › Topic A: Gen AI capabilities in Snowflake
- › Topic B: Governance, cost and security for AI

02 Cortex AI features, functions and LLMs

- › Topic A: Cortex LLM functions
- › Topic B: Cortex Search and Cortex Analyst
- › Topic C: Agents and retrieval patterns

03 Snowpark Container Services and Model Registry

- › Topic A: Fine-tuning open-source models
- › Topic B: Registering, versioning and serving models

04 Document processing pipelines

- › Topic A: Document parsing functions
- › Topic B: Building and optimizing parsing pipelines
